*When he has gathered speed he runs very strongly with the ball. His passing however is very poor, for he hardly ever looks where he is throwing the ball. Anthony is keen to get on & is interested in all types of music, but real progress will be slow if he allows himself to gloss over tricky passages in a piece. These are the passages which matter during practice time. Scales, too, are part of the foundations of a good technique & must be accurate, controlled & musical.

At the beginning of the season he showed considerable promise as a left-handed batsman, being prepared to step down the wicket and use a straight bat. Latterly, however, he has not made the progress for which I had hoped.

He has fielded keenly and quite well, and has played

a number of times for the Under 14 XI.
